PROFESSIONAL EXPERIENCE

Echelon Media (PVT) LTD.

Colombo 03, Sri Lanka

Full Stack Developer

November 2023 – November 2024

Junior Web developer

February 2023 – November 2023

- Implemented and launched <u>NeonMedia.lk</u>, a Sinhala news website, mainly using Next.js, WordPress, and GraphQL, ensuring high performance and seamless content delivery.
- Revamped <u>Echelon.lk</u>, improving performance, user experience, and SEO by leveraging Next.js, WordPress, and REST API.
- Developed multiple microsites, including <u>Shine 50</u>, utilizing Next.js to support various business and editorial requirements.
- Maintained and enhanced the company's other news platforms, such as <u>EconomyNext.com</u>, improving site stability and content management workflows.
- Managed and optimized AWS and SiteGround servers, ensuring high availability, security, and scalability of hosted applications.
- Involved in the complete development lifecycle, from planning, implementation, and testing to deployment and ongoing maintenance.

JWARE AUTOMATION (PVT) LTD.

Sri Lanka

Trainee Software Engineer

February 2022– May 2022

- Developed and implemented frontend applications using React.js, contributing to multiple projects.
- Gained hands-on experience with modern development tools and methodologies.

PROJECTS

https://www.neonmedia.lk/

- Technologies: Next.js, SCSS, GraphQL, WordPress, AWS, SiteGround
 - NeonMedia is a Sinhala news platform providing real-time updates and current affairs to Sinhala users. Built with Next.js and SCSS, it ensures fast loading and seamless navigation. GraphQL enables efficient data retrieval, while WordPress serves as a headless CMS with custom plugins. Hosted on AWS and SiteGround, it ensures scalability and reliability.

https://echelon.lk/

- Technologies: Next. js, SCSS, REST API, WordPress, SEO Optimization, AWS, SiteGround
 - Revamped Echelon, a leading business and financial news platform, to enhance performance, user experience, and content management. Built with Next.js for faster load times and improved SEO. Integrated WordPress as a headless CMS via REST API for seamless content delivery. Deployed on AWS and SiteGround, ensuring high availability and reliability.
